**Ayer's
Cherry Pectoral**

"For many years I suffered from bronchitis, for which I tried a variety of remedies including sprays and inhalers. These did me no good and I then began to use Ayer's Cherry Pectoral, with most satisfactory result. One dose quieted my cough and enabled me to get much needed sleep. I would not now be without it for any consideration. I have passed through this winter free from the cough, and I am glad to say that several of my friends have been benefited in the same way. I am sending a bottle to a friend in New Zealand by today's steamer."

In large and small bottles.

**Remarkable
Ruberoid
Roofing**

Statistics prove that less than 2 per cent of the roofs on which millions of rolls of Ruberoid Roofing have been applied during the past twelve years have been painted or coated.

This is a record of durability never even approached by any roofing, whether of metal or other material. It is a positive demonstration of weather-proof, acid-proof, water-proof, and fire-resisting qualities such as are found in no other roofing.

This roofing is for long wear. For temporary roofing we have cheaper grades.

**MORGAN WILL
QUIT BUSINESS**

WILL RETIRE FROM ACTIVE LIFE
AT THE OPENING OF THE NEW
YEAR AND SON WILL SUCCEED.

NEW YORK, September 22.—J. Pierpont Morgan Jr., has leased a New York house, furnished, for four months and is going to spend the winter here. Morgan expects to take up the details of the management of the firm of J. P. Morgan & Co., at the beginning of the new year, when his father will retire from active business, though remaining nominally at the head of the firm for some time. Wall street heard these facts today and was not surprised, for Morgan's retirement has been expected for more than a year.

The great financier has paid less and less attention to his business and more to art and charity in the last two years and it is said he is now willing to shift almost the entire responsibility on his son and upon the other partners, of which he has ten. J. P. Morgan will retire from business with a fortune estimated at between \$100,000,000 and \$150,000,000. He is a director in thirty-seven companies. J. Pierpont Morgan Jr., is 36 years old, six feet tall and weighs 260 pounds. He is athletic and fond of outdoor exercise.

CHINESE PUPILS.

Miss Alice Georgina Murrie of Dorchester started to teach a Sunday-school class of Chinamen at Boston three years ago and has just been married to one of her pupils, Dr. Tang Yawa Fond, a dentist. He has a large practice among the members of his race who live in Boston.

**Kentucky Beauty
Takes The Platform**MARGARET
INGLES

NEW YORK, Sept. 18.—Miss Margaret Ingles has started from Lexington, Ky., for New York to begin work as a stump speaker for the cause of Parker and Democracy. This vivacious versatile young woman, in whom beauty is combined with oratorical power, will speak mostly in Indiana, having been so assigned by the Democratic National Committee.

Miss Ingles is a firm believer in the effectiveness of the feminine appeal in the matter of winning votes. She is not a beginner, having in the campaign of 1900, at Lexington, faced the largest political rally in the history of that city.

Miss Ingles was chosen enrolling clerk of the Kentucky House of Representatives from a field of six aggressive competitors. She has a wide acquaintance among the politicians of the South, whom she meets on the common ground of zealous party workers.

This ardent champion of Democracy was born in the little town of Paris, Ky., and was trained for the stage. She essayed juvenile parts for a few years and then decided to take up the study of politics. Miss Ingles is a close student of political economy and is a firm believer in the future of women in campaigning.

Miss Ingles was formerly prominent in the society of Bourbon county, which is in the heart of the Blue Grass region. Her beauty and daring horsemanship made her much sought after.

**FRISCO JAPANESE
MAKE A PROTEST**

OBJECT TO BEING KEPT OUT OF THE PUBLIC SCHOOLS AND
SEND IN A MEMORIAL ON THE SUBJECT—GREAT MEN OF
JAPAN WHO WERE EDUCATED IN AMERICA REFERRED TO IN
THE MEMORIAL.

SAN FRANCISCO, Sept. 27.—A second protest against the proposition to establish a special school for Japanese which the children of that race in this city are to be compelled to attend was filed yesterday with the Supervisors by K. Yukawa, acting president of the Japanese Association of America; K. Koda, secretary, and Dr. A. Nishirata, director. The protest says:

How unfortunate it will be for this country, as well as for our own, should the resolution of the Board of Education be passed by your august body. Unfortunate for this country in that such an action on your part—perhaps not so apparently—would certainly go to cancel many of the former splendid and magnanimous acts of this republic in leading our country to her present standard of civilization and reciprocity. Equally unfortunate would it be for Japan, because of the feeling that she must cast of that fraternal allegiance which her people so long in the past have manifested to the United States. But we feel confident that it is not the desire of the people of this country to thrust in an obstacle or cause ill feelings between the two countries, especially at present, when the sympathy of almost the entire population of the United States is extended to Japan in her struggle in the Far East.

We feel proud to state that many graduates of American colleges, or those who have received an education in this country, are holding important posts in both government and business life. Baron Kaneko, who held many distinguished offices in the government and who had a brilliant career, was a graduate from Harvard University. Our present Minister, Mr. Komura, and the Vice-Minister, Mr. Chinda of the Department of Foreign Affairs, are both graduates of American colleges. Peculiarly interesting is the case of Mr. Chinda, who rose to his present fame and distinction from the humble position of a school boy. Equally famous personages are in the army and navy. Admiral Ito and Admiral Uriu are both graduates of Annapolis.

But we cannot for a moment suppose that your honorable board would reject our children from the public common schools of this city simply because they are of a different nationality, disregarding that they are citizens of a "sister nation," ignoring the fact that they are equal with the American children in every respect save their complexion, and also disregarding the fact that minors and those who are natives of this country are entitled to the same privilege and rights guaranteed under the august Constitution of this country.

The protest will in due course be referred to the Supervisors' committee on finance and education, which are to consider the matter of the proposed special school in joint session.

DON'T DISTURB NATURE.

Now it is the swallow that destroys mosquitoes, and the English sparrows have driven the swallows into the mosquitoless wilderness. When men try to adjust nature to their own advantage how commonly they make a mess of it!—Brooklyn Eagle.

YOU CAN MAKE A

RACKET

But it won't be nearly as satisfactory as one of those fine
